

ANOTHER DISTRICT

BIG STRIKE BRINGS CHERRY CREEK TO THE FRONT

Goodwin's Weekly Tells of the Promising Section

A long neglected mining camp in eastern Nevada which has for some years past been laboring under the burden of litigation and bickerings between owners in an attempt to force the purchase or sale of their leading mine, the Star, one of the largest producers of high grade silver ore in the western country, is coming to the front. During the past week extensive strikes in high grade gold have been made in the old Joanna mine, the property of an old-time prospector in White Pine county, near Cherry Creek, Nev. Leasers have been working in different parts of the claim, as well as on several claims located on the same contact as the Joanna, which are owned by Ernest Baker and his associates, and throughout the entire workings free gold working up into thousands of dollars have been opened up and an early shipment may be expected to Salt Lake of some of the richest ore which has been produced in Nevada. The assays from a three-foot vein in one of the claims runs from \$20 to \$1,200, running in porphyritic quartz. The ledge shows up throughout, well in place, with both walls, and is without doubt a true fissure vein.

A tunnel is being run by the owner of the Joanna, which has opened up the richest deposit of high grade ore ever taken from that district, and the camp is wide awake to the importance of the recent strike. Egan Canyon, lying close to the town of Cherry Creek, is also rich in minerals, and silver properties which have been lying idle for years, since the drop in silver, will be reopened and make good producers. Samples of gold ore have been received at Salt Lake from these new strikes, which fairly glisten with the rich yellow metal, and a future rivaling that of Tonopah is predicted by those who have inspected the recent strikes, for the old camp of Cherry Creek.

There are several Salt Lake capitalists who have valuable holdings in this district, who will be encouraged to make early investigations of their holdings, now that the unmistakably rich developments have been made. The distance of this camp from shipping points on railroads has been a serious hindrance to the development of the mines, but with the abundant water and timber supply close at hand capital alone is required to place the camp upon an enormously rich paying basis, and with the installation of machinery and equipment for handling the rich ores at the point of production the camp will soon take its proper position among the bonanzas of the Silver State.

There are a large number of free-gold propositions close to the town of Cherry Creek, which have for years been worked in a superficial way by their owners, and have been sufficiently rich to more than pay all expenses for working them in the crudest manner, and one of these mines which was located over twenty years ago by David Pierce, has been a steady and un-failing producer during all these years, although lack of sufficient capital to open it and install forced out of the open it up properly and install modern machinery has held it down. Recent assays from this property, upon which over 500 feet of tunneling has been done, give returns of over one thousand dollars a ton and every foot of development made recently shows a marked increase in width of ledge and value of minerals.

All that Cherry Creek mining camp now needs is capital and enterprise to place it among the largest dividend payers in Nevada.—Goodwin's Weekly.

Cloth by the Yard

I have 200 samples in dress goods, such as homespun, Vienna cheviot, basket cloth, covert cloth, broad cloth, Venetian Thibet, zebeline clay cloths, mixed suiting, whipcord valton, showers proof cloth, Kersey raglan cloth etc., which I will sell by the yard at wholesale prices. Goods delivered in ten days after order is given.

MRS. K. KNOWLES.

Born

In this city, September 23, 1902, to the wife of William Noland, a son.

CHANGE ON THE TICKET

JAMES LARSON RESIGNS-- JAMES EASTON ACCEPTS

A Strong Man Added to the Winning Ticket.

Yesterday the Silver Party Central Committee received the following communication which is self explanatory: Empire, Nev., Sep. 23rd. Ormsby County Party Central Committee, Gentlemen:

I hereby most respectfully decline the nomination for County Commissioner, short term. Thanking you gentlemen for the honor conferred upon me, and wishing the whole Silver party success, I remain Most respectfully,

JAMES LARSON.

Mr. Larson was a nominee on the ticket, and is considered one of the strongest men in the Empire precinct. When he handed in his notification of withdrawal he stated that his reasons were that he felt that the political game was new to him and that he did not have the time to devote to the campaign. He verbally stated that he was with the Silver party and would lend his entire support to the ticket. He has always been in the ranks and his support of the ticket in his precinct will assure a big vote in that quarter.

Last evening the County Central Committee held a meeting to fill the vacancy caused by the resignation of Mr. Larson. The man selected to fill the place is James Easton, and his name goes on the ticket. Mr. Easton is one of the solid men of this county, and that he will make a winning run no one doubts. He is successful man in business life and his cool judgment has made him friends in the party ranks of all the factions. The general opinion is that James Easton is one of the best men in the county, and with his support to the ticket it is complete in every detail.

A Big Dance

On the evening of the 26th there is a dance billed for Cook's grove, which is properly intended for the candidates of the two parties to show their metal. The last dance given at the grove proved a very enjoyable affair and this will eclipse the former event. Along with the entertainment features, will be the band and that is a big addition to the doings. Friday night is the time for the opening of the campaign and it is billed for Cook's grove.

Branch Line to Tonopah

E. H. Harriman of the Southern Pacific, may soon build a branch line 60 miles long from a point on the C. & C. road in Nevada to the Tonopah mining district. A mining expert has been at work for the past two months collecting data for Harriman as to the traffic resources of the district. It is said this report inclines the Southern Pacific to build the new road, not only to the Tonopah district, but to the Nevada Midland Railway Company of New Jersey. The latter is preparing to extend its line into Tonopah from Austin and Battle Mountain. Kruttschnitt has advised Harriman to build the sixty mile line.—San Diego Transcript.

Hot Mexican Tamales at Davey & Maish.

Another case of smallpox has appeared in Reno.

J. E. Baker, of Ione, Cal., is registered at the Briggs.

J. S. Sneed, of Phoenix, Arizona, is a guest at the Arlington.

Weather forecast for today; high north west winds and much colder.

4487 voters have registered so far. There are about 250 more to hear from.

Bob Skaggs is one of the Democratic nominees for the Assembly in Elko county.

Reno Presbyterians are making good progress in collecting a fund for the erection of a church in that town.

The first work of construction of reservoirs under the Newlands' irrigation measure will begin in this next spring.

In the District Court this morning in the matter of the estate of John W. Mackay, deceased, order appointing J. R. Ryan, J. W. Donohue and R. E. Patton appraisers of said estate in Storey county.—Report.

REQUIRES WATCHING

ILLEGAL REGISTERING ALONG THE CONSTRUCTION LINE

A Print That the Parties Should Investigate

The following from the Wells Herald is proof of an attempt at wholesale illegal registration along the line of the railroad, and should be a warning to Democrats and Silver party men to adopt such means as will prevent the fraud being perpetrated elsewhere as there is good reason for the belief that it is being attempted in other counties besides Elko. The fusionists of Washoe, Humboldt, Eureka and Lander counties should be on their guard:

There are in Elko county today, and all along the line of the railroad through out the State, many men engaged in railroad construction who will attempt to register within the next month for the fall election. Some of the men are legally entitled to vote while the great majority are not. The various registry agents should be very cautious and require every stranger to take the oath. The law prescribes that none shall be entitled to vote unless he shall have been in the State six months and in the county thirty days previous to the day of election.

We understand that a voting precinct is to be established at Feneion, and it is said that two hundred and fifty men will register. Those in a position to know, question very much that even one hundred and fifty men at Feneion are legally entitled to vote.

Two or three weeks ago a business man of Elko approached Registrar Morgan and told him he would bring one hundred and fifty men to register. Mr. Morgan questioned the business man as to whom they were. He remarked that they were railroad laborers and ended by saying, "I can vote them as I wish." However, Mr. Morgan did not grasp the bait and politely informed him that the men would be required to take the oath of residence. The business man became somewhat wrathful and intimated that the registry agent was too particular and that the men would register elsewhere. That ended the interview and the men have not yet appeared at Mr. Morgan's office to be registered. Whether or not they are registered elsewhere is not yet known. Every registry agent in the county and State should pattern after the precedent established by Mr. Morgan. If a man is entitled to vote, he should take no offense at being required to take the oath. If he does not take the oath it is evidence that he is an impostor.

Lander Convention

Lander county Republican held a convention in Austin last Saturday, the first since 1890. William Easton, who was a candidate for Assessor by petition, was nominated against his wishes for State Senator. Easton refused the nomination and the county central committee will name a candidate. W. C. Hancock of Battle Mountain and G. F. Litrell of Austin were nominated for the Assembly by acclamation.

The Eagle market is receiving a thorough renovation with new paint, new fixtures and a new man at its head, it certainly looks good.

FLYER WAS WRECKED

BOTH ENGINES DEMOLISHED IN THE MIX-UP

Engineer Dangerously Wounded -- No Passengers Hurt

The overland limited trains, Nos. 1 and 2, were wrecked by a collision at Tonka sidetrack, eight miles east of Carlin, shortly after 4 o'clock this morning. No. 1, the westbound flyer, was in charge of Conductor Reeve, and No. 2 of Conductor Herrington. Engineer Warner of No. 2 was seriously hurt, but the full extent of his injuries cannot be ascertained. His fireman, named Browning, was severely bruised. Engineer Lindsey of No. 1 and his fireman, jumped and escaped injury. The two engines were smashed to pieces, and the buffet and dynamo cars and the buffet and mail cars of No. 2 were made into kindling wood. So far as known the mail clerks and baggagemen were not hurt seriously, and none of the passengers were injured.

The collision occurred on the main line. No. 1 was several hours late and should have been on the sidetrack. It had been stopped to take the siding, but was too late, and No. 2, running at high speed, crashed into the standing train.

It is not possible to get more than the above particulars at this time. The track was blocked for several hours, though it was cleared quicker than usual on account of a wrecking train from Carlin being on the scene within a very short time after the collision occurred.

No. 1 is due to arrive here at 2 o'clock this afternoon, about thirteen hours behind time.—Silver State.

Mining Company Formed

In California last week was incorporated the Tonopah Fraction Extension Company.

The property consists of two claims which are extensions of the famous Fraction claim in Tonopah, and are known as the Fat Boy and the Outing claims. They are owned by T. R. Hofer of this city, and S. A. Knapp. Active development work will be prosecuted at once.

Wood For Sale

Good dry split pine and limb wood, has never been flumed and is prime for use. Will be sold in quantity to suit patrons. Sawing done at short notice cut to suit patrons. R. SAVAGE. Phone 191.

Proposals For Wood

The Board of Capitol Commissioners will receive sealed bids for furnishing 50 cords of nut pine wood, the same to be corded, on the east side of the Capitol grounds, measured, sawed into 16 inch lengths and piled in the basement of the Capitol building, under the supervision of the Board. Bids will be received up to noon on the 2nd day of October, 1902, and said bids will be opened and considered on said day at 2 o'clock p. m. The wood must be delivered on or before the 15th day of October, 1902.

The Board reserves the right to reject any or all bids. Address, Clerk of Board of Capitol Commissioners, Carson City Nevada. W. R. DAVIS, Clerk.
